Thank you for this. Only question at this point from my perspective is what is the anticipated traffic volume entering and exiting the establishment? Are they expected to be coming and going at staggered times or is it a situation where this will occur at approximately the same time each day? This will be helpful if the information can be provided.

Thanks in advance

Chief Steve W.

Subject: Plans for 263 West Main Street

Hi Everyone:

Attached are revised plans for the 500-space parking lot at 263 West Main Street (behind Enterprise on the old driving range). The Planning Board is meeting on May 27 and would appreciate a response, even if you have no specific comments.

Thanks.

Bill
