  - a. The Public Hearing was reopened at 6:16 PM. Abutters were present.
  - b. Matthew Marro's recommendation: "erosion protection must be in place. The applicant may cut the pines and should replant with sugar maples and oaks to restore the canopy. The applicant would only have to space out 25 trees as the canopies are much wider per tree than pines. The remainder of the trees she marked should remain. There was an area by the wetland the applicant also marked. These should not be allowed to be cut. Erosion control to be along the shore. No shoreline cutting permitted."
