Bill; Re; Butler's Way – the fire department has reviewed plans for the purposed road development named "Butler's Way" off Jaybee Ave. We take no exception to the proposal, a single fire hydrant is sufficient for the length of roadway, roadway width and cul-de-sac radius is all sufficient for department apparatus to navigate through.

Let me know if you need any other input on this proposal.

Thanks Paul

Paul Konieczny, CFO

Assistant Chief

Dudley Fire Department
