***Have you and/or your children developed a fever, new cough or new shortness of breath within the last seven days?***

If you and/or your children are experiencing a fever of 100.1 F or higher, NEW cough (within the last seven days) or NEW shortness of breath (within the last seven days), call your primary care physician's office or pediatrician's office for guidance. We request that you/your children don't visit emergency departments, urgent care sites or offices to have those particular symptoms evaluated, as you may pass on your illness to others.

Yes, I am experiencing fever or symptoms as described above \_\_\_\_\_

No, I do not have a fever or symptoms as described above \_\_\_\_\_

***If yes, you will not be able to access child care services at this time.***

***I have read and completed this survey and answered these questions honestly and to the best of my knowledge. I agree not to utilize emergency child care services, if I or my child have experienced in the last seven days or are currently experiencing a fever and symptoms as described above.***
