Good Afternoon Bill

I am requesting a change on the Drainage pipe for the Lyons Estate Subdivision, I would like to use Plastic pipe instead of the RCP that was originally put on the plan, It is much easier product to work with and I feel a much better product to use. If you could please put me on the next board meeting so I can get this hopefully approved and move forward.

Thank you

Tom Revane

**Subject:** Pipe

Hi Tom:

Could you send me a quick note about your request to change the culvert from RCP to HDPE? I can bring it to the Board next Wednesday, the 9th, so it doesn't slow you down.

Bill
